## GREAT Improvements In Electric Lighting System.

### Increase In Service Has Been Marked—Some Interesting Figures.

Early next spring Akron will be lighted under a new system, with increased power and greatly extended service.

The Northern Ohio Electric company figures that the consolidation of the Traction power plant and the present electric plant will take place the first of next spring, when the alternating current lamps will be introduced. These lamps will be a great improvement over the kind now in use.

The new electrical machinery to be put in the plant will cost, it is estimated approximately over \$100,000. The company and several electrical manufacturing concerns are now figuring upon bids for the contract of putting in the new machinery.

To those who never stop to think of the magnitude of the electric lighting system of Akron, the following figures, given by an official of the company to a reporter for the DEMOCRAT, may prove interesting:

There are in use in this city 17,000 incandescent and 500 arc lamps. Jan. 1, 1899, the amount of light wire in use was 600,000 feet; the number of feet reaches now almost 1,000,000.

New lines are being strung daily, and a force of 25 men is kept busy working on these.

Before the expiration of another year Akron's electric light service will be among the best of any city of its size in the country.

St. Mary's Fair opens tonight, Nov. 3, with a minstrel show. Many novel features. Every evening something new and entertaining. St. Mary's hall, South Main st. Admission 10 cents.

## SERVICE STRIPES

Can be Secured by Paying For Them—Sample Here.

A sample of the new gold lace service stripes, to be worn by members of the Ohio National Guard who served in the Spanish-American war has been received by one of the members of Co. B. The stripe is one-half inch wide and very neat. Although there is a general impression that the stripes will be furnished by the State, such is not the case. Members of the guard who are eligible and wish to wear the new stripes must secure them at their own expense. The expense, however, is only nominal.

The County Commissioners were in session Friday trying to straighten out the tangle in the schools of sub-district No. 9, Franklin township. There is trouble over the selection of a teacher. C. C. Sisler, who has been the teacher for eight years, wants to be re-elected.

The Board at its spring meeting turned him down by a vote of 5 to 4. Later one of the 5 wanted to reconsider the action but Chairman L. M. Kaufman refused to consider the motion. There are four other candidates for the place.

## RE-ENLISTED.

Will See Service In the Philippines.

William Jones Sailed From San Francisco Today—His Letter.

Wm. Jones of this city received a letter Friday evening from his brother, Alfred M. Jones, who recently enlisted in one of the volunteer regiments for service in the Philippines. Mr. Jones has been in San Francisco for some time awaiting orders. He states that he expects to sail for Manila on the transport Olympia, which had orders to sail Friday, Nov. 3.

He enlisted for two years. Volunteers who served in the Spanish American war, when re-enlisting have a special privilege.

The time of their former service is deducted from the term of the new enlistment, thus shortening the actual period of their service in the Philippines. Under this arrangement Jones who served in Cuba with Co. B of the Eighth, expects to be discharged Jan. 4, 1901.

**Paved With Human Skulls.**

At Gwandu, in Africa, which contains between 10,000 and 15,000 inhabitants, the town, which is oval in shape, is surrounded by a palisade of tree poles, the top of every pole being crowned with a human skull. There are six gates, and the approach to each gate is laid with a pavement of human skulls, the tops being the only parts that show above ground. More than 2,000 skulls are used in the pavement leading up to each gate. The pavement is of snowy whiteness and polished to the smoothness of ivory by the daily passage of hundreds of naked feet.—Cincinnati Commercial Tribune.

**Thought She Could Do It.**

"Yes," she said after giving the matter careful deliberation. "I believe I can return his love."

Truly, when it came to a matter of choice, it seemed easier to return his love than to return his many valuable presents. Any rate it was worth trying.—Chicago Post.
